RE: Professional Rules of Conduct-Rule 8.4

Honorable Members of the Court,

Regarding case number AF 09-0688 you are accepting public comment on the proposed new Rule 8.4(g) of the Professional Rules of Conduct for Montana Attorneys.

I am a citizen of Montana and have lived in Missoula Montana for 65 years and have during a lifetime never witnessed such immoral justification for a deceptively designated "special class" of people who claim to have need for legal protection because something that is not and has never been medically proven to be a legitimately defined and fixed aspect of human dignity as "sexual orientation." Now it comes before the legal profession itself as if it holds some credible acceptance as a legitimate cause for protection from discrimination. The argument that sexual orientation is matter of protection from discrimination and that penalties should be imposed upon those who have moral indifference to it is a direct and open threat to religious liberty.

It is apparent that the American Bar Association presumes it can and should practice social engineering and that all people should fall in line to their "new" perception of what is cultural normalcy and what being human really is. This is outrageous--and it speaks of a blatant rejection that any moral significance has any significance at all.

This statement stands and it speaks volumes of its inherent precept of truth--"Once the court determines that is to be the arbiter of cultural values, instead of the law, it violates and encroaches upon itself and invalidates its own legitimacy."

I urge the court not to adopt the proposed change to Rule 8.4 of the Professional Rules of Conduct.

Sincerely,

Tei M. Nash
